Professional Summary

"Senior Project Engineer & Civil Engineer with a track record of delivering over **$100M in cumulative project value.** Expert in Industrial Construction Execution, Planning & commercial, having improved operational efficiency by up to **30%** in fast-paced engineering and tech environments. Proven ability to lead cross-functional teams of **10+ members** to exceed stakeholder KPIs

Education

Master of Technology: Sushila Devi Bansal College of Engineering (RGPV)– Structural Engineering 2024
Indore, **India**

- Graduated with 8.44 CGPA.
- Completed the advanced practice semester with merit.
- Scored 9.00 CGPA in the final dissertation with excellent feedback from the markers.

Master's Dissertation

Title: Experimental Investigation on Marble Dust as Partial Replacement of Cement.
Improving the properties of concrete by addition of waste marble powder is becoming popular now a day because it helps in achieving the economy and is a superior alternative as concrete ingredient, which offers high strength.

Bachelor of Engineering: Sushila Devi Bansal College of Engineering (RGPV) - Civil Engineering 2019
Indore, India

- Graduated with 6.67 CGPA.

Experience

Sr. Project Engineer: Billing & Change Order Management **Dec 2024 – Present**

Facilities And Building Solutions Private Limited **Bangalore, India.**

Client: PEPSICO India Holdings Pvt. Ltd, Ujjain.

PepsiCo's beverage production facility, focusing on sustainability through renewable energy and high-water efficiency.

- **Strategic Cashflow & Bill Tracking:** I orchestrate detailed CSA & MEP monthly project **Cashflow & Billing**, ensuring 100% alignment with multi-phase strategic milestones, tracking accruals & actuals.
- **Quantity Surveying:** Quantification of supplied & executed quantity, tracking multiple trackers for material monitoring.
- **Change Order Management**: Ensuring quantity surveying, rate analysis and alignment of vendor & client approvals as per client protocols.

Project In-Charge **Dec 2022 – Nov 2024**
Chandrika Power Private Limited **Bihar Sherif, India.**

- Directly managed the **end-to-end delivery 60 KL ethanol distillery plant** in Bihar, overseeing a total project **CAPEX of $9 M+** while managing different vendor for construction, erection & process.
- **Efficient Project Management**: Managed scope, budget, schedules, and resources effectively, delivering high-quality results on time from zero to production.
- **Data-Driven Decision Making**: Designed and tracked KPIs to monitor progress, proactively identify risks, and implement mitigation plans ensuring smooth project execution.
- **Cross-Functional Collaboration**: Worked closely with site managers, engineers and vendor teams to streamline operations, integrate new technologies, and align outcomes with client and compliance expectations.
- **Role & Responsibilities:** Design coordination, Structural execution, Project billing, vendor coordination and procurement monitoring.

Site In-Charge **Dec 2021 – Nov 2022**
Mekalsuta Sugar Private Limited **Badwani, India.**

- Directly managed the **end-to-end delivery 75/100 KL ethanol distillery plant** in Bihar, overseeing a total project **CAPEX of $11.1M+** while managing vendor coordination for construction, erection.
- **Structural Knowledge:** Understanding of construction processes, structural execution, and site management.
- **Problem-Solving & Decision-Making:** Ability to resolve on-site challenges and ensure smooth project delivery.
- **Role & Responsibilities:** Design coordination, Structural execution, Project billing and vendor coordination.

Site Engineer **July 2020 – Oct 2021**
Almighty Associates. **Indore, India.**

- **Project Execution & Supervision:** Oversee day-to-day construction activities at the site, ensure work is executed according to approved drawings, specifications, and codes.
- **Design & Quality Control:** Coordinate with architects and design engineers to implement plans correctly, conduct inspections to maintain quality standards in materials and workmanship.
- **Role & Responsibilities:** Design coordination, Structural execution, Project billing and vendor coordination.

Site Engineer (Execution & Property Valuation) **July 2019 – Mar 2020**
Bhupendra Singh & Associates **Indore, India.**

- **Construction Execution**: Strong knowledge of structural works, site supervision, and quality control, Understanding of civil engineering codes, standards, and construction methodologies.
- **Valuation & Billing:** Expertise in preparing BOQs, cost estimation, contractor billing, and project valuation.
- **Role & Responsibilities:** Design coordination, Structural execution, Project billing and Property valuation.

Strengths

- Project Management Expertise
- Technical Background
- Resilience & Adaptability
- Cross-Industry Experience
- Agile, Waterfall, and hybrid project environments
- Data processing and analysis.
- Microsoft Office. & Microsoft Project
- Process Improvement Focus
- Stakeholder Management
- Excellent networking

Key Achievements

- **Cost Savings: Identified and proposing different prospect during procurement & execution for cost saving in Project (Material Unloading Machines, Outsourcing equipment's).**
- **Exploring Different Approach: Trying and executing different method and approach to achieve goal during distillery projects.**
- **Risk Mitigation: Reduced project risks by 20% by implementing AI-driven and traditional risk analysis.**
- **Conference Presenter: Presenting plan and approach to the team for the cashing & tracking of cashflow during project billing.**
- **Work Excellence: Having upper hand in managing & analyzing change order & quantity surveying large scale task, Achieved a 95% issue resolution rate during Pepsico Ashoka Project (Data control and Analysis)**
